

MUSANNA BIN MUZAHID

Computer Science & Technology Student | Tech Enthusiast & Content Creator

hello.musanna@proton.me | +880 1601162157 | Savar, Dhaka, Bangladesh

GitHub: github.com/MI-Musanna | Tech Blog: mitecharsenal.blogspot.com

SUMMARY

Enthusiastic 2nd-semester Computer Science and Technology student with a core focus on Python programming and practical AI usage. Experienced in utilizing AI-assisted workflows (Vibe Coding) and precise prompt engineering to build functional web applications. Passionate about video editing, tech blogging, and learning modern digital design software.

WORK EXPERIENCE

Founder & Technical Blogger | MI Tech Arsenal

Jan 2021 – Present

- Built and optimized a responsive technical blog using custom layout tweaks on Blogger engine.
- Publish technical articles, OS customization guides, and software reviews while managing search console indexing and performance optimization.

Lead Developer | FamExpenSync(Web & Android Suite)

Jan 2026 – Present

- FamExpenSync v3.0 (Web): Engineered a privacy-first Flask SPA with an async DOM-swapping engine for dynamic reloads using Python & ORM.
- FamExpenSync(Android): Built an offline mobile expense tracker using Kotlin WebView and local storage for secure, localized data management.

Independent Content Creator & Video Editor | Self-Employed

Jan 2021 – Present

- Producing high-quality visual content utilizing Wondershare Filmora and Canva.
- Focused on minimalist UI designs, tech-focused video editing, and digital content creation for personal and community projects.
- Actively expanding skills in DaVinci Resolve and Affinity Photo.

EDUCATION

Diploma in Computer Science & Technology (C.S.T)
